Peer assessment provides the student an opportunity to develop both feedback and reflective practice skills. How do you prepare the student for these skills? Can we base a student's mark when it includes peer assessment. How does the instructor manage peer assessment if it is to become a valid way to assess your students? What type of assessment strategies/activities could best use peer assessment. This workshop will answer these questions and look at how you can successfully integrate peer assessment into your evaluation practices.

Attendance by Drop-in. Don't forget to bring your lunch!
