# CID New Faculty Orientation & Teaching Tips Workshop

**Friday, November 25, 2011**

**8:30 am to 12:30 pm; Room 2211-B-Broadway**

**Facilitator: Ginny Cathcart, CID**

This informal and fun session will include an orientation to VCC education policies and support services including presenters from the VCC Library and Learning Centre. We will share some great teaching tips; integrate education technology into your lessons and resources to promote active teaching and learning (e.g. Clicker Technology; Innovative PowerPoint techniques) onsite and online.

You will learn how to survive those first few days as an instructor with a useful lesson planning model and acquire knowledge of VCC's education support services.

Most importantly we hope to mentor and network with you and faculty colleagues and introduce you to further opportunities for educational growth as a VCC instructor through the School of Instructor Education and the Centre for Instructional Development.

**Register by November 20, 2011 at the CID website. Click the 'events' tab for a link to the registration form.**
