

Learn @ Lunch Workshops

Understanding 3D Printing to bring out learning potential

Date: January 28, 2016

Time: 12:00 – 1:00 pm

Room: Room 828, VCC Downtown Campus, 250 West Pender St.

Facilitator: Eugene Suyu, Founder & CEO, Tinkerine Studio Ltd.

3D printing is a fascinating technology that allows individuals to bring to life a digital shape into the real world. In this seminar, you will explore what it means to 3D print - from understanding the landscape of 3D printing technologies to looking at some of the skill sets in modeling that is required. The facilitator will answer the essential question: How can educators bring this technology effectively into the classroom?

Attendance by RSVP or Drop-in. Bring your lunch!
