Workshop Description

This informal and fun session will introduce VCC and the educational support services available to students and faculty. We will share tips to help you start preparing for teaching; introduce technologies that you can use to actively engage students in the learning process; and acquaint you with a useful lesson planning model.

This session will allow you to network with other faculty and introduce you to further opportunities for growth as a VCC instructor through professional development with the School of Instructor Education and the Centre for Instructional Development.
